

DO YOU HAVE DIABETES? DO YOU HAVE NUMB FEET?

Researchers at La Trobe University are currently investigating the effects of a new device to improve walking steadiness in people with diabetes who suffer from numb feet.

To participate, you would need to attend a 2-hour appointment at the Gait Laboratory at La Trobe University (Science Drive, Bundoora).

If you would like to participate, or would like further information, please contact Maria Auhl on 9479-5258.
